Simon Belton

Employer, job title and role when accepted as a Club Member.

For whatever reason, and working in the industry since 1979, I have only just become a member, after retirement. I worked for Kawasaki (27 years), Yamaha (7 yrs), KTM (2 yrs) and Ox Prod (2.5yrs).

Current Details

Actually I am semi-retired! I am a self-employed Brand Ambassador, working solely for an agency who have JLR, Subaru and Volvo as clients, the former brand taking up a large proportion of my time working for the company. I work on events such as the Goodwood Festival of Speed, Chelsea Flower Show, Bramham horse Trials along with bespoke retailer events and tours.

In terms of hobbies, I include motorcycling of course. I have a 2024 Yamaha Tracer GT+ and use regularly including to ride to the South of France with my wife.

I also own and run (and meddle with) a 1972 MGB GT. I have completed most of the work on the car myself and since it came into my ownership in 2019, have made it a lovely thing to drive and own, with confidence!
